THE COMPLETE VISION FOR THE BOOTH

HALLIBURTON BOOTH DESIGN

project overview :

Arena Rise designed and implemented an integrated booth for Halliburton with the aim of showcasing products in a way reflects luxury and innovation, giving visitors a sophisticated visual experience .

Materials Used :

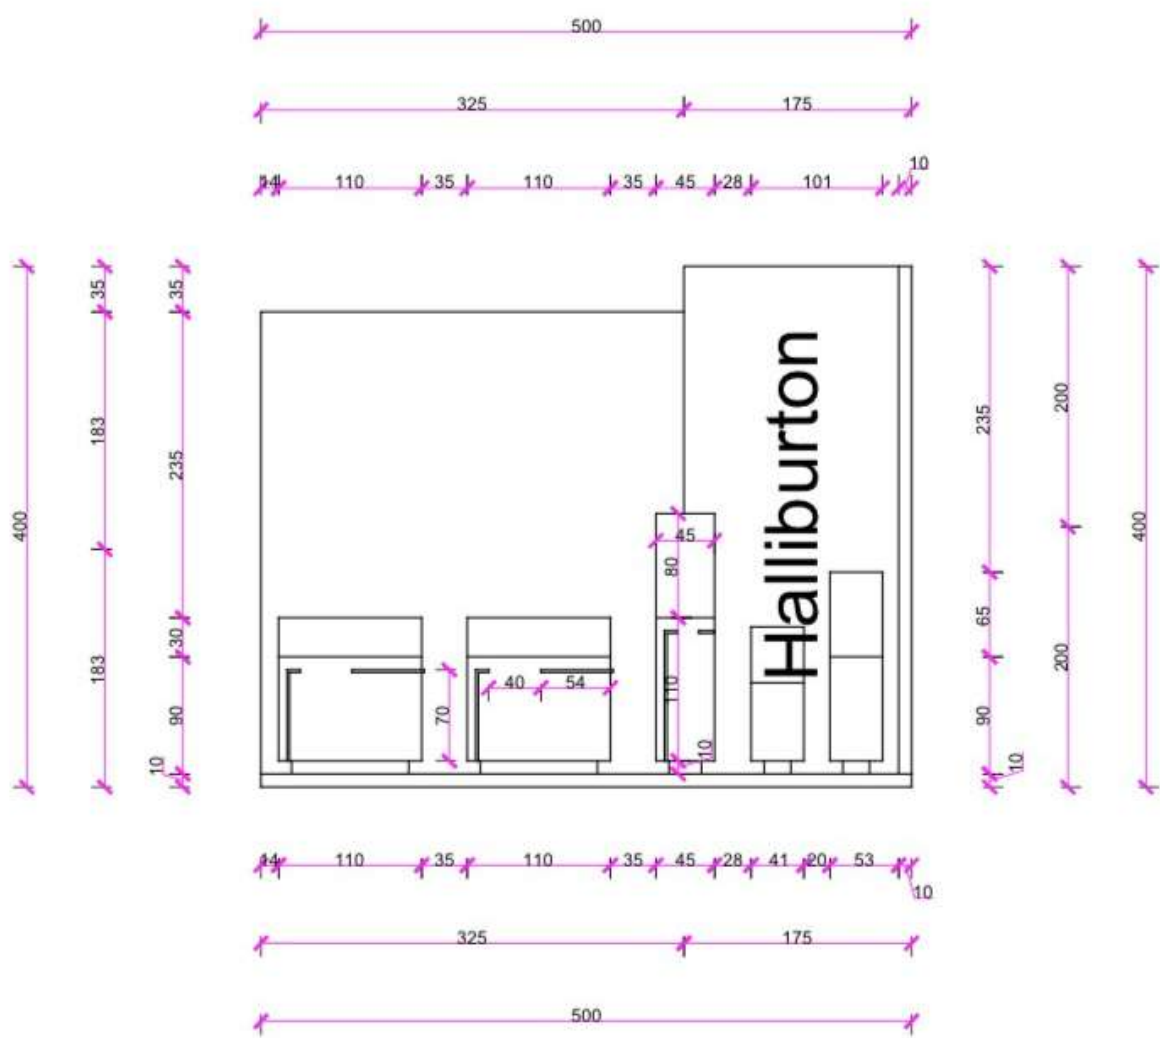

High-quality materials were selected, such as natural wood for the floors, polished acrylic, and modern metallic touches .This blend of materials gave the booth an elegant and contemporary look that reflects the identity.

The visual experience :

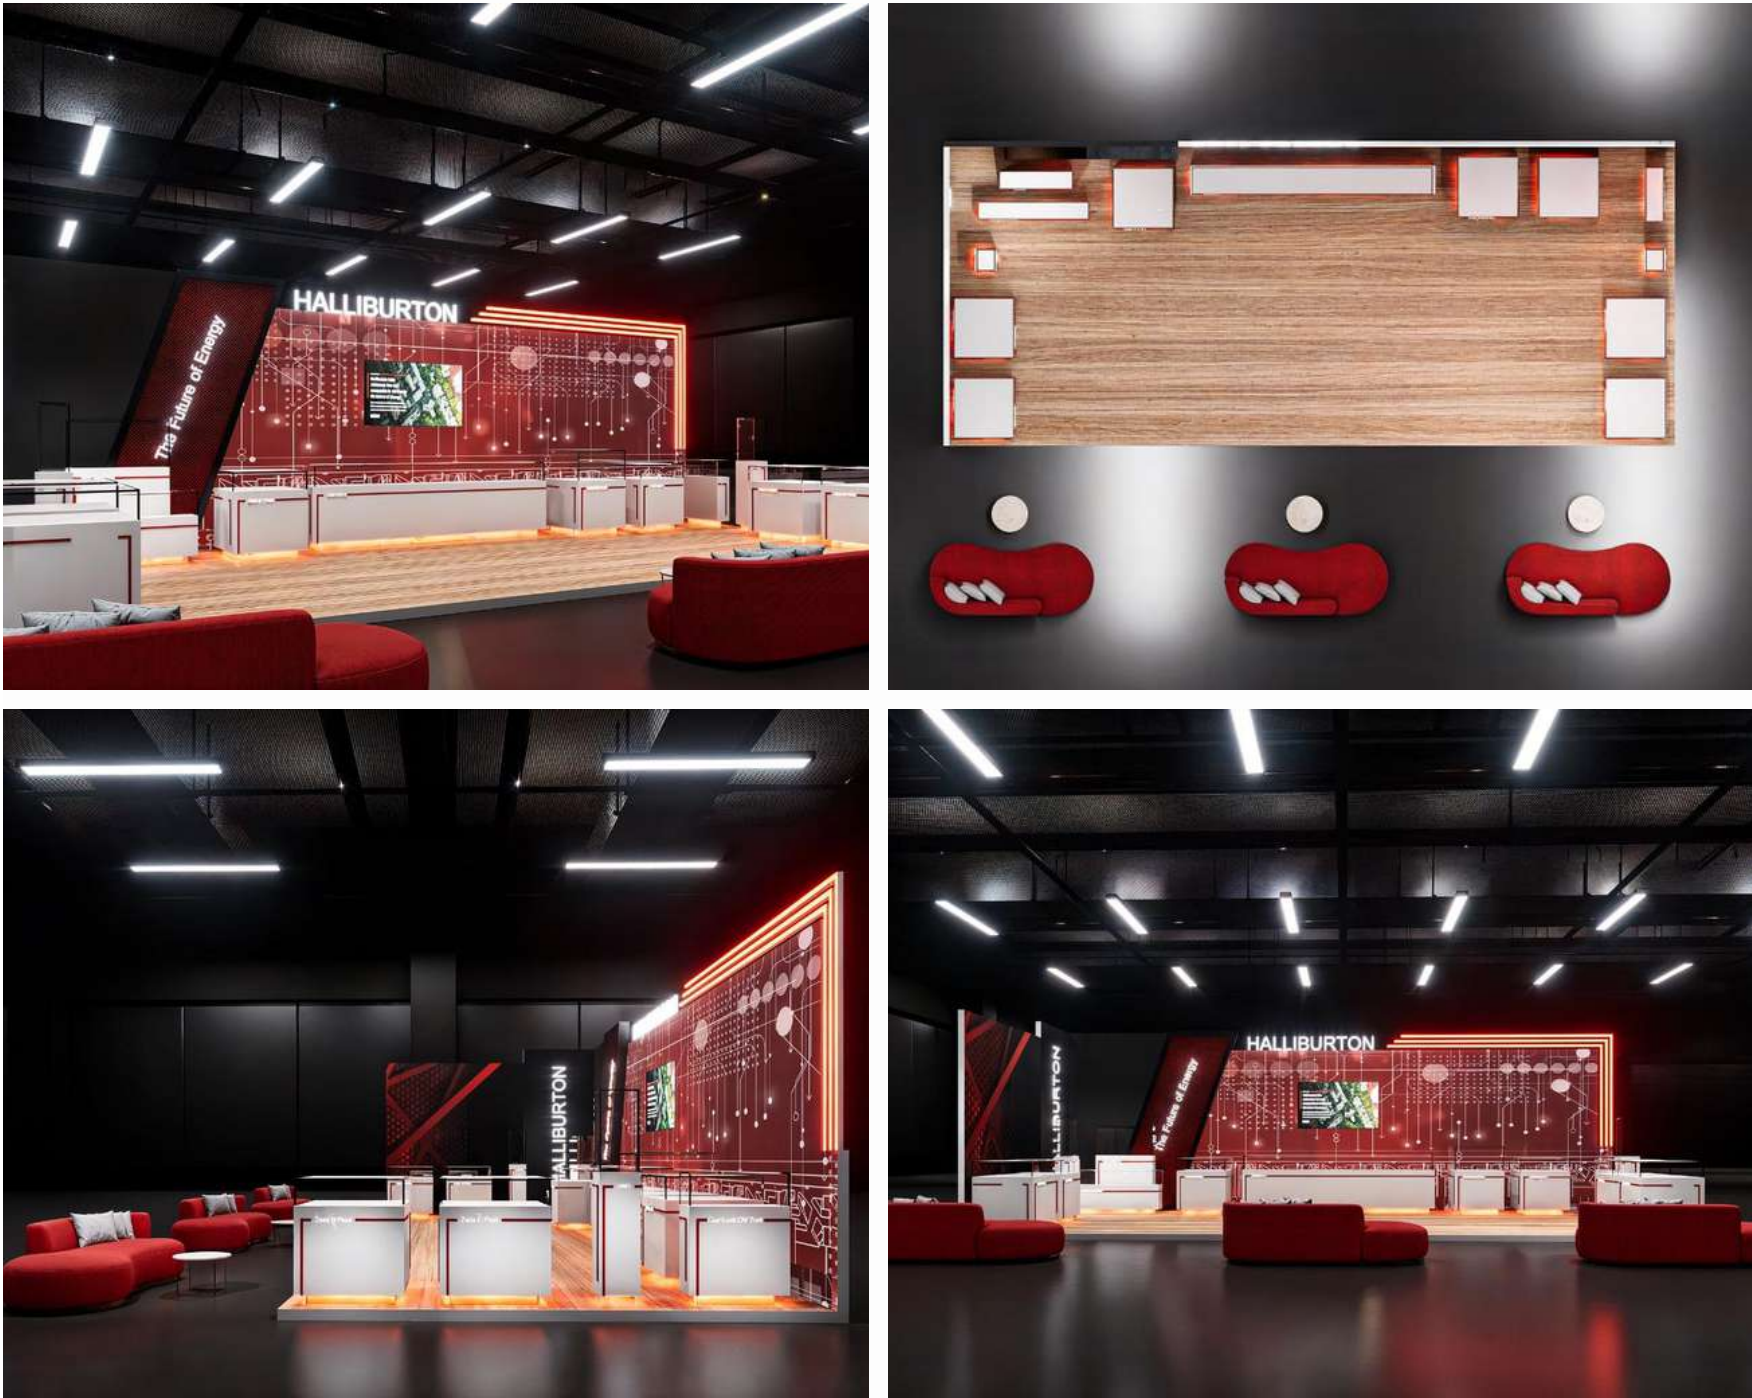

it combines elegance and functionality with comfortable seating areas and organized display spaces, making visitors more interactive and engaged.

THE DETAILED LAYOUT

THE COMPLETE VISION FOR THE BOOTH

PARSONS BOOTH DESIGN

A modern and open exhibition booth with an elegant geometric design, based on the company colors with digital displays and a clear reception area, in addition to a circular illuminated overhead element that enhances the visibility of the identity from a distance and provides an indication experience for visitors.

We transformed the **PARSONS** booth design into a real exhibition experience, accurately reflecting the company's identity and visual language with attention to detail and high-quality execution.

INFRATECH BOOTH DESIGN

Project overview :

This innovative, multi-level, futuristic technology exhibition booth features a white structure with luminous blue accents that reflect its digital character.

It includes interactive displays, reception and seating areas, and slanted structural elements that enhance its visual identity, along with ambient LED lighting that highlights the booth and attracts attention from various angles.

HERE IS A DOCUMENTATION OF THE DESIGN AND FINAL EXECUTION OF THE INTERACTIVE BOOTH, HIGHLIGHTING THE COMPANY'S VISUAL IDENTITY WITH .QUALITY AND PROFESSIONALISM

Coordinating Council for Companies of Religious Leaders and Service Providers for Pilgrims from Abroad

Visual appeal : Attractive and eye-catching through colors, lighting, and graphics to draw in visitors.

Functionality : A design that facilitates easy movement within the space and provides an area for customer interaction and product or service display.

Visual identity : Reflects the brand identity (logo, colors, etc.).

Interactivity : Incorporates interactive elements such as touchscreens, displays, or a meeting area.

These photos show the execution of the booth for

PROPTech BOOTH DESIGN

Project overview :

Booth design is the art of crafting a small space that tells a complete story.

In a flash, it captivates visitors with its harmonious colors, intelligent lighting, and clear visual identity.

Beauty is perfected when elegance and function are combined:

- A stylish surface for displaying products.
- An open space for networking and interaction.
- Simple visual touches that leave a lasting impression.

.Our execution of two different Proptech booth designs at the exhibition
